Legend: Company Visit Study Topic Orientation Review Session

What you can expect out of this week:

- A skill-set that allows you to diagnose your operations
- Examples of various practices that provide a new data base
- A blueprint that can be implemented in any organization
- An action plan which you can apply in your own setting

You will be exposed to different:

- Work environments
- Practices
- Technology
- Results

The challenge will be to make sense out of an abundance of observations.

At the end of each day we will:

- Review the day's experiences
- Utilize discussion groups to enhance your experience
- Review principles pertinent to the following day
- Explain what we will focus on the following day
